LISTEN GOOD . . . Curtis J. Johnson

WDGY's "Comment Line" has provoked a number of interesting replies to daily situations such as: Should husbands be allowed a night out with the boys, or, how can men better understand women, or, what do you think of todays movies . . . and on and on and

Each day Don Martin and Curtis J. Johnson scratch their pointed heads to come up with another provocative but "Routine" question. The reason . . . to find out what the public has to say about daily issues. And I might add the public says a mouthful.

In a reply to the question of todays movies, one lady remarked . . . "There's too much sex in todays movies.

Another lady pointed out that a man should have a night out with the boys, "provided the lady of the house knows that the man of the house is not out with the lady of another house".

A young girl told comment line that she didn't want men to better understand women because "it would take all the fun out of being a woman".

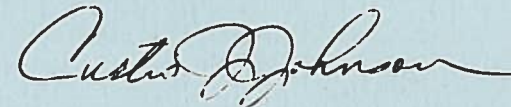

From just these reactions you can now understand why Don and Curt are frequently drowning their sorrows at a local pub or pulling what remaining hair they have out of their scalps.

If you haven't tried Comment Line (827-9971) yet . . . do so.

You might just as well join the crowd that is obviously out to drive our newscasters up the proverbial tree.

WDGY listens on Comment Line and then gives callers a chance to tell te world (well the twin cities) what they think.

We're sorry we can't use "all" of the answers we receive on Comment Line, on the air . . . but
