LISTEN GOOD . . . by Jimmy Reed

HUH!

Another summer suffers a beautiful death. The Labor Day Weekend . . . the Minnesota State Fair . . . school is in, but REALLY out, and with that . . . summer is dead. Hope yours was beautiful, because mine was.

It was Minnesota State Fair, but I went anyway . . . everyday, and I'm filled up to here with snow cones, Pronto Pups, apples, Foot Longs, Tom Thumb Donuts, popcorn, cotton candy, carmeled apples, people and a few other things you can REED between the lines. I wanna thank those who brought their young ones in strollers . . . besides tripping over them, the back of my heels are black and blue, but I bumped into some real nice people. Walking the Midway was a real trip. "Your welcome" to the game hustlers for my money and "Thanks" for all the ash trays and beer mugs. There's always next year to try and win that big teddy bear.

GOODBYE TO A LOSER AND WELCOME TO A WINNER. Hope the Twins do better next year, but I'm sure the Minnesota Vikings will be in the Super Bowl.

How was my Mediterranean vacation? Beautiful and HI! to Gillian Wiseman in England. Which just goes to prove, you meet the nicest people on a ship trip.

LISTEN GOOD . . . John Lennon's new album is great . . . George played guitar, John and Yoko produced from London with love. P.S. Paul isn't dead either. According to the New Musical Express, Blood, Sweat & Tears are trying to get Paul to produce their next album. Number one Soul Brother . . . James Brown has split King Records after 13 years. The Moody Blues new album cover and disc can sure mess up your mind.
